# Knee-High Naturalist

*A new adventure program for 3-5 year olds*

Let us guide you and your little one through Project Wild's award-winning Growing Up Wild curriculum, designed to build on children's natural sense of wonder about nature. At this exciting new weekday program, we extend an invitation for families to explore wildlife. Through a wide range of experiences and activities, we'll help your child develop a positive first impressions about the natural world and build into lifelong social and academic skills.
